

## **Professionalism Statement**

The American Board of Otolaryngology, as the certifying body within the profession of Otolaryngology-Head and Neck Surgery, has an inherent interest in the ethical and moral commitments that are a part of the profession of medicine and surgery. The setting of standards for education and performance is specifically within the purview of the American Board of Otolaryngology with regard to its diplomates, and this is the basis for the Board's inherent interest in the professionalism of its diplomates.
